

What is GLNumber

GLNumber enables customers to acquire unique phone numbers in the countries of their choice to which all their calls can be forwarded to wherever they are in the world. GLNumber Direct Inward Dialing (DID) service can give the customer a global presence by allowing them to have a local number in a variety of different international locations simultaneously and/or a toll-free number for Canada and USA!

How it works

GLNumber provides individuals or companies a unique phone number that is completely unassociated with any physical land line, programmed to ring to a specified destination number anywhere in the world. Every time the local number or toll-free is dialed, it automatically rings to a chosen destination number – which can be a landline, office line, or mobile phone number anywhere in the world.

For certain countries in which DID services are not available, we offer the PINCall option. This option allows the customer to obtain an access number and Personal Identification Number (PIN) and designate them to ring to any destination chosen by the customer.

GLNumber provides customers with a complete solution from start to finish. This includes online account management, troubleshooting services, call history, and back-end technical infrastructure without any need to outsource to other companies.

Benefits

■ For Individuals

The GLNumber service is ideal for individuals who wish to keep in contact with friends and family in other countries. Your friends and family will dial a local phone number or Canada/USA toll-free that will ring to your chosen destination number. They will only be charged for the local phone call, (no charge to caller for toll-free numbers).

■ For Businesses

With GLNumber your business can acquire local phone numbers in one or more countries around the world or a Canada/USA toll-free number. This allows companies to keep in contact with their employees, partners, associates, and consumers on a global scale. Having local phone numbers in multiple countries gives your business a global presence, while also providing convenience to all of your contacts.

GLNumber at a glance

- No contracts / No hidden fees
- Get all your friends, family and business partners to call you on a local number
- Competitive long distance rates
- Phone numbers available in many countries worldwide
- 24/7 Customer Service support available in multiple languages
- Canada / USA toll-free phone numbers

Group of Gold Line

The Group of Gold Line (GL) is a Canadian company specializing in the research, development, marketing and worldwide distribution of telecommunication solutions and technology products. Its portfolio ranges from telephony, web to print, digital printing, WebTV and educational technologies.

Founded in 1991, GL has evolved to become the largest provider of prepaid long distance products and services in North America, with over 300 million minutes of long distance calling per month. Its products are distributed in over 50 countries, with approximately 100,000 points of sale around the world.

GL's mission is to connect people around the world to what matters and bring them closer to their family, business, culture and languages through innovative, unique and competitive technology-based products and services.
