

NEWS RELEASE

GLCyberBooth GL New Business Alliance Opportunity

For Immediate Release: October 8, 2013

TORONTO, ON, October 8, 2013 – Group of Gold Line (GL) is happy to announce the launch of their new telephony product, **GLCyberBooth**. Combining the benefits of a traditional phone booth with the affordability of VoIP technology, GLCyberBooth is a cost-efficient, long-distance solution that store owners, call shops, and Internet cafés can offer to clients.

GLCyberBooth offers a new opportunity for shop operators to become GL Agents. With no technical training or experience required, shop owners can enter the profitable world of telecommunications with low risk and little starting capital.

GLCyberBooth is a great business model for countries with limited bandwidth or expensive access to the internet. It also offers a lucrative opportunity in countries with a limited number of telecom providers or heavy telecom regulations. Consumers in these countries usually do not have access to low cost long-distance services, but with GLCyberBooth they have the opportunity to make long-distance calls at very competitive rates.

“We are proud to offer our customers international calling services at the highest quality and lowest rates” says Mr.Moeini, President and CEO of Group of GL. “It is a great opportunity for shop operators and other interested entrepreneurs to benefit from offering very attractive long-distance calling rates via VoIP technology with GLCyberbooth”.

A comprehensive GL Agent program provides shop operators with the tools needed to attract GLCyberBooth customers and gain a long-term competitive advantage in the industry.
